

Building Healthy Communities Is Our Mission

Kaiser Permanente's work in the community uniquely combines investments from our health plan as well as our hospitals and often includes medical expertise, health research, clinical programs, and volunteers.

invested in Thriving Schools programs and activities*

802

Physician and employee volunteers

Priority Health Needs

Improve Access to Care - Provide programs for low-income and uninsured people; support local community clinics and other organizations that help patients receive culturally sensitive assistance and care-coordination.

Increase Healthy Eating and Active Living - Provide education and increase access to healthy foods and physical activity in schools and community settings.

Improve Access to Mental Health Services - Increase access to ongoing mental health services; provide housing and/or social services for low-income, at-risk individuals; and, link primary care and behavioral health care to reduce the risk of mental illness related to violence.

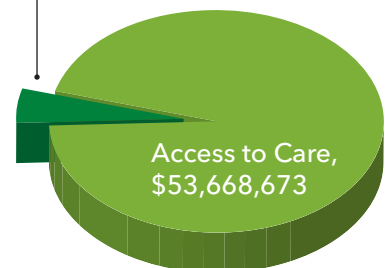

Examples of Our Investments

Kaiser Permanente provided the Latino Leadership Council a \$30,000 grant to help them improve access to health, vision, and dental services for uninsured individuals. Promotoras (community health workers) coordinate clinic appointments, lab work, prescriptions, and support services.

Placer People of Faith Together received a \$20,000 grant to train clergy and key community leaders in how to help persons who are in crisis or developing a mental illness. The training helps participants learn about the signs, symptoms, and risk factors of mental illnesses and addictions as well as how to connect people to professional and self-help resources.

Combined Health Plan/ Hospital Investment
